

Attention Diagnostic Innovators & Industry Experts

Detekt Biomedical actively seeking to acquire, license, or purchase novel rapid diagnostic tests and synergistic technologies to expand its universal lateral flow reader instrument platform.

Key Areas of Interest:

- Rapid screening assays for consumer health & safety
- Commercial & environmental quality/hazard detection
- Novel sampling devices (fluid, air, soil)
- Unique complimentary reagents and kits
- Handheld and desktop instruments with consumables

If your company has innovative products that align with Detekt's vision we would like to explore collaborations. Let's connect and discuss how we can provide additional revenue opportunities for you and work together to drive advancements in this field.

Our vision is to positively impact the health, well-being, and prosperity of over 5 billion people by 2030 through the global adoption and use of our rapid diagnostic testing products.
